

## Erratum

# Erratum for Exposure to Concentrated Ambient Fine Particulate Matter Induces Vascular Endothelial Dysfunction via miR-21

In our paper [1], the TIMP3 western blot image in Figure 3F should be corrected as follow.

**Fig 3F**

**Figure 3.** (F) Western blotting shows that the expression of TIMP3 was inhibited and MMP9 was up-regulated by PM2.5, and the effect was abolished by restraint of miR-21 in HUVECs. β-actin served as an internal control. \*P < 0.05, \*\*P < 0.01, \*\*\*P < 0.001.
